## Background

In July 2006, the Massachusetts Legislature created the Massachusetts Cultural Facilities Fund (CFF) through Chapter 123 of the *Acts of 2006, An Act Relative to Economic Investments in the Commonwealth to Promote Job Creation, Economic Stability, and Competitiveness in the Massachusetts Economy*. The Legislature created a partnership between MassDevelopment and the Mass Cultural Council to accomplish the following goals:

- Enhance the state’s creative economy by partially financing the acquisition, construction, expansion, renovation, and repair of cultural facilities.
- Stimulate further investment in the arts, heritage, entertainment, humanities, and interpretive sciences by preserving cultural resources.
- Increase employment, entrepreneurialism, and tourism to the regions where these facilities are located, including tourism from outside the Commonwealth.

## Cultural Facilities Fund Advisory Committee

The statute established a Cultural Facilities Fund Advisory Committee to guide MassDevelopment and the Mass Cultural Council in the design and implementation of this program. The Committee is charged with providing advice on the management and operation of the Fund, reviewing grant recommendations from the Mass Cultural Council, and voting to recommend the grants it approves to the MassDevelopment Board of Directors, which authorizes CFF grants. MassDevelopment administers and disburses CFF grants.

The Advisory Committee includes six gubernatorial appointees with expertise in fundraising, finance, and construction, representing six different geographic regions of the Commonwealth: central Massachusetts, greater Boston, MetroWest, northeast, southeast, and western Massachusetts. Also serving on the Committee, as designated by the statute, are the executive directors of the Mass Cultural Council, the Massachusetts Office of Travel and Tourism, and the president and CEO of MassDevelopment.

**As of June 30, 2025, the members of the Advisory Committee are: Navjeet Bal, Chair, President and CEO, MassDevelopment; John Stowe, Vice Chair, Worcester; Michael Halperson, Boston; Jennifer Harrington, Boston; Michael J. Bobbitt, Executive Director, Mass Cultural Council; and Kate Fox, Executive Director, Massachusetts Office of Travel and Tourism.**

### Town of Andover

“Thanks to the Cultural Facilities Fund we were able to make the performance stage at Old Town Hall accessible to all. Without the support of this funding, we would not have been able to utilize the stage for individuals with accessibility concerns. We will be able to offer access to the stage for many more in our community.”

— Ann Ormond, Director of Business, Arts, and Cultural Development

## Fund Activity: FY25

In June 2024, Governor Maura Healey approved a FY25 capital appropriation of \$10 million to the Cultural Facilities Fund. Prior to this, the Legislature approved a \$50 million bond authorization to make the appropriation possible.

On September 18, 2024, the Cultural Facilities Fund Advisory Committee approved two measures: 1) new guidelines and applications for the FY25 grant cycle and 2) funding of 17 capital grants totaling \$2.6 million from the FY24 pool of applicants. The MassDevelopment Board of Directors approved these measures on October 10, 2024, and the FY25 application was released publicly.

On October 22, the Mass Cultural Council recorded a webinar to explain the guidelines and application process for interested applicants.

The deadline for FY25 applications was December 19, 2024. A total of 198 organizations from every region in the Commonwealth submitted requests for \$21.5 million in grants to support capital projects totaling \$502 million.

Five Cultural Facilities Fund review panels convened over Zoom in early March 2025. The panels included professionals with expertise in real estate development, historic preservation, community economic development, cultural tourism, real estate finance, facility operations, and nonprofit fundraising. The panels rated each application according to the review criteria published in the Cultural Facilities Fund guidelines.

After the panels conducted their analysis, the Cultural Facilities Fund Advisory Committee met to review the panel's work on April 24, 2025. The Cultural Facilities Fund Advisory Committee's recommendations were then presented to the MassDevelopment Board of Directors on May 10, 2025 and the process resulted in an approval of the new application and 74 grants totaling \$6,480,500.

*Note: there were two rounds of funding approved in this fiscal year, \$2,608,000 in October 2024 and \$6,480,500 in May 2025.*

In May 2025, the latest FY25 round of Cultural Facilities Fund grants were announced via press releases and legislative notifications.

### The Cahoon Museum of American Art, Cotuit

“Through the Cultural Facilities Fund, we have been able to work with well-known architects, contractors, and project managers to develop an architectural drawing and plan for the museum’s expansion, which has put us in a great position to move forward with a capital campaign.”

— Cristoff Shay, Interim Director

## Leveraging Additional Investment

All Cultural Facilities Fund grantees are required to raise a minimum dollar-for-dollar match from sources other than the Commonwealth, though most grantees raise more than their matching grant goal. From FY07 to FY25, Cultural Facilities Fund grantees funded and financed a total of \$3 billion to implement their respective capital projects.

## Economic Impact

To assess the impact of Cultural Facilities Fund grant dollars on the economy, the Mass Cultural Council surveys all organizations that receive grants from the Fund. The survey findings highlight the important role of these organizations to the Massachusetts economy. For example, 110 recent Cultural Facilities Fund grantees reported that they employ 3,192 full-time equivalent employees and paid \$280 million in annual wages and salaries.

The Cultural Facilities Fund also supports thousands of construction jobs. Projects funded between FY07 and FY25 employed 42,145 architects, engineers, contractors, and construction workers statewide. In addition, 3,512 new jobs have been projected at cultural facilities in Massachusetts because of CFF-funded projects.

## Future Demand

The Mass Cultural Council also surveyed capital projects in the state's cultural sector that are in the planning stages. In November 2025, 257 organizations reported their pipeline of facilities projects over the next three years totaling \$1.14 billion. This includes \$763 million in renovation projects, \$325 million in new construction projects, and \$54 million in real estate acquisitions.

### The Norman Rockwell Museum, Stockbridge

“It is challenging to source private funding for projects that do not hold immediate attraction for donors, yet are crucial to our visitors’ experience, their safety, and the preservation of the artwork. Support from the CFF for important infrastructure improvements enables us to safely serve visitors and tourists from around the world.”

— Hilary Dunne Ferrone, Chief Philanthropy Officer

## Roots Rising, Pittsfield

“The CFF is critically important as an ongoing resource because it provides stable, dedicated funding for capital improvements that can be challenging for small nonprofits like Roots Rising to secure for projects. This investment strengthens the physical and operational capacity of these organizations, allowing them to better serve their communities and sustain programs for the long term.”

### Worcester County Light Opera Club

"This grant allowed our organization to continue our mission through the ability to operate without interruption. Our facility had a roof that was dilapidated presenting multiple issues with rain leaking and increased fuel cost in the winter. We are grateful for the funding. Otherwise, it would have taken a few years to raise the capital on our own."

—Lenny McGuire, Board President

## Zeiterion Theatre, New Bedford

“This Fund has provided support for a \$37 million restoration and renovation project. Without the fund, our resources would have been taxed to find other sources of support. The fund has made it possible for us to bring a marquee back to the building and has helped us install a brand-new HVAC system.”
