About the Brownfields Redevelopment Fund

MassDevelopment and the Brownfields Advisory Group are pleased to submit an annual report for the Brownfields Redevelopment Fund. Over the past two decades, the Fund has contributed to the revitalization of hundreds of contaminated sites by providing early-stage financing for environmental site assessments and cleanup activities. A total of 727 awards totaling $103,338,510 have been made since its inception. This funding leverages additional public and private investment, allowing development projects to advance to completion. This year, we have chosen to highlight a series of projects in various stages of development that demonstrate the Fund's ability to support the creation of both new jobs and housing.

Brownfields Advisory Group (As of June 2019)

Jessica Andors, Chair  
Executive Director, Lawrence CommunityWorks

Heriberto Flores  
Chairman, Partners for Community

Tom Daniel  
Director of Planning and Community Development, City of Salem

Nancy E. (Betsy) Harper  
Deputy Chief, Environmental Protection Division, Massachusetts Attorney General's Office

Virginia (Gina) Foote  
Director of Fund Development, CLF Massachusetts

Joseph Kriesberg  
President, Massachusetts Association of Community Development Corporations

Rory O’Hanlon  
Legislative Director and Deputy Policy Director, Executive Office of Housing and Economic Development

Michele S.W. Paul, LSP  
Director of Environmental Stewardship, City of New Bedford

Michael Crawford  
Senior Vice President & Regional Executive – Worcester Market, Rockland Trust

Martin Suuberg  
Commissioner, Massachusetts Department of Environmental Protection
The Fitchburg Art Museum and NewVue Communities, a regional community development corporation, are teaming up to create 62 units of artist live/work space (44 affordable and 18 market-rate) on a campus that includes three historic buildings across the street from the art museum in downtown Fitchburg. In fiscal year 2019, MassDevelopment provided a $20,000 site assessment grant from the Brownfields Redevelopment Fund to support NewVue’s due diligence activities prior to site acquisition.

Dubbed the Fitchburg Arts Community, the campus will be ready for occupancy in 2021 and will include a variety of one-, two-, and three-bedroom apartments, along with studio/workspaces and other amenities. Most units will be affordable, available to artists with annual family incomes between $25,000 and $55,000, while approximately 30% will be rented at market rate.
Once an MBTA bus yard, the former eight-acre brownfields site now known as Bartlett Station is the largest-ever mixed-income, mixed-use development in Roxbury. When complete, 323 new apartments, condominiums, and townhomes (216 affordable, 107 market-rate), plus 50,000 square feet of retail and office space for local entrepreneurs, will enhance this Dudley Square neighborhood. Commercial tenants will include a grocery store and fitness center, while the centerpiece of Bartlett Station will be the Oasis@Bartlett, an active and vibrant outdoor park scheduled to open in 2021 with a focus on supporting local artists, nearby audiences, and neighborhood businesses.

MassDevelopment supported the project with a $50,000 predevelopment loan in 2010, and provided $1 million grant from the Brownfields Redevelopment Fund for assessment and cleanup in 2014.

As of fiscal year 2019, 76 housing units in two buildings and 13,000 square feet of retail space have been completed. Buildout will continue through 2023.
Residences at Salisbury Square

The YWCA of Greater Newburyport and its development partner, L.D. Russo, transformed a former school building in Salisbury and a vacant municipally-owned lot (formerly a shoe factory) into 42 units of affordable housing in two separate buildings. A $100,000 remediation grant from the Brownfields Redevelopment Fund allowed the Town of Salisbury to clean up the site and achieve a Permanent Solution within the meaning of the Massachusetts Contingency Plan. The $12.3 million project was completed this past summer allowing residents to move in and enjoy green space amenities, architectural details including exposed brickwork from the original building, central air conditioning, and more.
The Attleboro Redevelopment Authority (ARA) received a **$500,000 remediation grant** from the Brownfields Redevelopment Fund in fiscal year 2019 to clean up the former Reynolds & Markman site located within the city’s Intermodal Transportation Center (ITC) Urban Renewal Area.

Reynolds & Markman, Inc., an industrial supply company serving jewelry manufacturers, owned the site from 1958 to 2013. During the 1960s, a wetland area had been used as a commercial landfill. Additionally, in 1989, a small building that had been used for the storage of a variety of chemicals burned down, possibly causing a release of solvents into the soil.

The ARA acquired the strategically located property at the intersection of Olive Street and the newly constructed Riverfront Drive. When fully remediated, the site will be a prime candidate for commercial/residential mixed-use redevelopment consistent with other nearby successfully redeveloped parcels, building on the momentum for the creation of housing units within easy reach of transportation, parking, commercial activity, and a scenic riverwalk.
Located on a portion of the former Facemate Corporation property in Chicopee, the newly constructed River Mills Assisted Living at Chicopee Falls sits on a four-acre development parcel adjacent to the new RiverMills Senior Center. The Facemate property was originally developed in the 1800s for textile manufacturing, with operations ceasing permanently in 2003. An investment of a $2 million grant from the Brownfields Redevelopment Fund has now leveraged more than $40 million in funding from public and private sources for assessment, remediation, demolition, and construction costs. River Mills Assisted Living at Chicopee Falls is a three-story, 80,000-square-foot building with 73 assisted-living units and 22 memory-support apartments, with 20% of the total units designated as affordable. The project combines thoughtfully designed spaces with high-quality assisted-living amenities and affordability, on a historically relevant site.

$40 million investment
