

Emerging Technology Fund (ETF)

Quarterly Report to the Legislature

April 1, 2022 to June 30, 2022

ETF Activity

- As of June 30, 2022, the ETF had made loans and guarantees to 58 companies totaling \$96,897,115.
- Overall, reporting companies who have received support from the ETF employed 3,380 people as of June 30, 2022 and have created over 2,587 new jobs in the Commonwealth of Massachusetts.
- Between April 1, 2022 and June 30, 2022, the ETF received \$317,713, in loan repayments, interest income, and fees. Operating expenses were \$68,873.
- As of June 30, 2022, the Fund had \$25.4 million available to make loan commitments and a pipeline of \$22 million of projects that are considering applying or are in the underwriting process.
- The uncommitted balance of the Fund exceeding current pipeline on June 30, 2022 was \$3,488,473.

Featured Company

Vyasa Analytics, LLC

Vyasa Analytics (“Vyasa” or the “Company”) designs, engineers, and delivers software as a service solutions based on novel deep learning technologies to clients primarily in the life sciences and healthcare fields. Deep learning is a subset of machine learning that utilizes algorithms inspired by the structure and function of the brain called artificial neural networks. Essentially the algorithms teach themselves how to become more effective at a given task as more data is fed into them. The Company was formed in 2016 as a direct result of founder Christopher Bouton’s doctoral thesis work on designing computational systems that mimic the human brain’s approach to data organization and visualization, as well as his past experience building, growing, and selling machine learning company Entagen to Thompson Reuters. The ETF provided a credit facility to Vyasa in the amount of \$1,800,000 for the purpose of financing the addition of new full-time staff as well as supporting the Company’s shift from renting 3rd party cloud computing capacity to building out its own proprietary infrastructure.

Financial & Technical Assistance

MassDevelopment assisted Acusphere, Inc., Celldex Therapeutics, Inc. (formerly Avant Immunotherapeutics Inc.), and Cytonome, LLC in finding suitable facilities in the Commonwealth. All loan applicants received assistance in structuring financing for their projects with MassDevelopment and other lenders.

Uncommitted Fund Balance

Between April 1, 2022 and June 30, 2022, the ETF received \$317,713, in loan repayments, interest income, and fees. Operating expenses were \$68,873. The uncommitted balance of the Fund on June 30, 2022 was \$25,488,473.

As of 6/30/2022

Beginning Fund Balance	\$ 24,750,000

Geographic Distribution

As of June 30, 2022, the ETF has closed loans and guarantees with companies in each of the Commonwealth's five geographic regions as follows:

Region	Closed Loans	# of Companies
North	\$ 20,300,000	9
South	\$ 8,703,657	5
Central	\$ 13,980,000	7
West	\$ 3,905,958	4
Greater Boston	\$ 50,007,500	33
Total	\$ 96,897,115	58

Current ETF Portfolio

Currently, there are 21 companies in the ETF portfolio with an active loan, warrant, or equity position.

Program History

The mission of the Emerging Technology Fund (ETF) is to create jobs in Massachusetts by providing financing for facilities, equipment, and working capital that leverages private financing to growing companies employing or commercializing emerging technologies.

Since its creation in 2003, the ETF has helped cutting-edge companies locate or expand in the Commonwealth, providing jobs and strengthening the innovation economy. The ETF has leveraged private investment for companies and maintained its ability to serve as an “evergreen fund,” providing unconventional risk capital in the form of debt to development-stage emerging technology companies seeking to commercialize their products. In an effort to increase both employment and production, the Commonwealth passed legislation in 2010 that allowed MassDevelopment to offer a working capital term loan product from the Fund to help growing companies address staffing and other working capital needs. This new capability has been well-received especially in light of new technological developments in Deep Tech, Digital Health, and Artificial Intelligence (AI).

The ETF was recapitalized in 2007, and in 2010, the Legislature transferred \$15 million to launch the Massachusetts Growth Capital Corporation. Since then, the Fund has taken various measures to ration capital. These measures, as well as early loan payoffs from successful portfolio companies, have stabilized the Fund’s liquidity position. The Fund has restored its maximum loan size to \$2.5 million and can now support larger expansions. The ETF, however, continues to rely on loan repayments to capitalize new loans and may need recapitalization if new investments for business expansions and relocations outpace loan repayments.

Background

Chapter 141 of the Acts of 2003 created the ETF. The statute requires submission of this quarterly report to certain legislative committees. Established to leverage private investment and to recruit and retain technology-based and advanced manufacturing companies in the Commonwealth, the approximately \$53 million Fund provides loans and guarantees for the purchase, expansion, or improvement of real estate; purchase of equipment; and working capital needs. The Fund was initially capitalized with \$24.75 million, recapitalized in September 2006 with \$10 million as a result of an economic stimulus bill passed by the Legislature, and then recapitalized again in November 2007 with an additional \$15 million. In November 2010, \$15 million was transferred from the Fund to capitalize the Massachusetts Growth Capital Corporation in accordance with signed legislation. The Fund is governed by an Advisory Committee that has adopted the following mission statement:

The mission of the Emerging Technology Fund is to create jobs in Massachusetts by providing financing for facilities, equipment, and working capital that leverages private financing to growing companies employing or commercializing emerging technologies.
