

Emerging Technology Fund (ETF)

Quarterly Report to the Legislature

April 1, 2021 to June 30, 2021

ETF Quarterly Activity Summary

As of June 30, 2021, the ETF has made loans and guarantees to 58 companies totaling \$96,897,115. There are eight companies in the ETF pipeline representing \$13.85 million in potential financings. An additional loan of \$900,000 was previously approved by the MassDevelopment Board of Directors and was in the closing process as of June 30, 2021. While the Agency has closed 65 loans and guarantees over the lifetime of the ETF, 35 of those have been paid off in full and are no longer in the portfolio. Since inception, the Fund's portfolio companies have raised over \$6.31 Billion of equity capital. The Fund's realized portfolio investments (loans paid off) have returned an average Internal Rate of Return of 14.96% and the Total Value to Paid In Ratio (capital loaned to capital returned) of 1.47x since data was first recorded in 2011. These performance metrics do not include current outstanding loans. The Fund also received partial proceeds after liquidation of certain assets on loans provided to eight companies in the portfolio and charged off \$6,517,005. Seven of the companies involved have ceased to exist.

Featured Company

Intigua, Inc./JetPatch

On April 9, 2021, MassDevelopment provided a \$1 million loan from the Emerging Technology Fund to Intigua, Inc., which does business as [JetPatch](#), to help the Boston-based company hire additional employees that can support its growth momentum. JetPatch's main platform delivers innovative patch automation powered by machine learning and predictive analytics. Using JetPatch, clients can achieve continuous compliance and operational efficiencies for the security maintenance of large-scale enterprise data center environments, as well as address the diverse security demands of remote work.

JetPatch is headquartered in Boston with a research and development center in Israel and a sales presence in Europe. Its main platform is an automated patch remediation that disrupts the legacy world of patch management. The JetPatch platform serves as a holistic solution for all patching-related needs by supporting multiple operating systems, cloud and on-premise environments, with an extensive integration to vulnerability management and other standard IT infrastructure. JetPatch protects against security breaches that are caused due to inefficient and ineffective security patching procedures by introducing predictive data analytics and automating all manual patch operations. JetPatch innovation is allowing organizations to better utilize their staff while achieving higher levels of security and efficiency.

*Calculated Internal Rate of Return (IRR) on a closed loan that has been paid off. Historical data is available for calculation from 2011 to present.

Financial & Technical Assistance

MassDevelopment assisted Acusphere, Inc., Celldex Therapeutics, Inc. (formerly Avant Immunotherapeutics Inc.), and Cytosome, LLC in finding suitable facilities in the Commonwealth. All loan applicants received assistance in structuring financing for their projects with MassDevelopment and other lenders.

Uncommitted Fund Balance

Between April 1, 2021 and June 30, 2021, the ETF received \$1,498,131 in loan repayments, interest income, and fees. Operating expenses were \$209,619. The uncommitted balance of the Fund on June 30, 2021 is \$22,347,904.

As of 6/30/2021

Beginning Fund Balance	\$ 24,750,000
Fund Recapitalization	10,000,000
Fund Recapitalization	15,000,000
Total Funding	49,750,000

Geographic Distribution

As of June 30, 2021, the ETF has closed loans and guarantees with companies in each of the Commonwealth's five geographic regions as follows:

Region	Closed Loans	# of Companies
North	\$ 20,300,000	9
South	\$ 8,703,657	5
Central	\$ 13,980,000	7
West	\$ 3,905,958	4
Greater Boston	\$ 50,007,500	33
Total	\$ 96,897,115	58

Current ETF Portfolio

There are 17 current portfolio companies. A portfolio company is defined as a company with an active loan, warrant, or equity position.

Program History

The mission of the Emerging Technology Fund (ETF) is to create jobs in Massachusetts by providing financing for facilities, equipment, and working capital that leverages private financing to growing companies employing or commercializing emerging technologies.

Since its creation in 2003, the ETF has helped cutting-edge companies locate or expand in the Commonwealth, providing jobs and strengthening the innovation economy. The ETF has leveraged private investment for companies and maintained its ability to serve as an “evergreen fund,” providing unconventional risk capital in the form of debt to development-stage emerging technology companies seeking to commercialize their products. In an effort to increase both employment and production, the Commonwealth passed legislation in 2010 that allowed MassDevelopment to offer a working capital term loan product from the Fund to help growing companies address staffing and other working capital needs. This new capability has been well-received especially in light of new technological developments in Deep Tech, Digital Health, and Artificial Intelligence (AI).

The ETF was recapitalized in 2007, and in 2010, the Legislature transferred \$15 million to launch the Massachusetts Growth Capital Corporation. Since then, the Fund has taken various measures to ration capital. These measures, as well as early loan payoffs from successful portfolio companies, have stabilized the Fund’s liquidity position. The Fund has restored its maximum loan size to \$2.5 million and can now support larger expansions. The ETF, however, continues to rely on loan repayments to capitalize new loans and may need recapitalization if new investments for business expansions and relocations outpace loan repayments.
